Journal of Ethnopharmacology 45 (1995) 231–233

Journal of ETHNO-PHARMACOLOGY

Subject index

Volume 45 (1995)

Acetaminophen; *Elephantopus scaber*; *E. mollis*; *Pseudoelephantopus spicatus*; β-D-Galactosamine; Hepatoprotective effect **45**, 113

Agropyron repens; *Herniaria hirsuta*; Calcium oxalate urolithiasis **45**, 211

Analgesia; *Irvingia gabonensis*; Stem bark; Morphine; Metamizole sodium; Naloxone **45**, 125

Analgesic effect; *Dioclea grandiflora*; Dioclein; Opioid agonist **45**, 207

Anthelmintics; Taenicidal herbs; Taeniasis; Traditional herbal drugs; Ethiopian herbs **45**, 27

Antiamoebic; *Entamoeba histolytica*; Medicinal herbs **45**, 43

Antibacterial activity; *Pycnoporus sanguineus*; Phenoxazinones pigments **45**, 177

Antibacterial and antifungal activities; *Prangos platychlaena*; Umbelliferae; Folk medicine **45**, 193

Anticonvulsants; *Casimiroa edulis*; Medicinal plants; Phenobarbital; Phenytoin **45**, 199

Antimicrobial activity; *Cassia alata*; Leguminosae; Dermatophytic fungi; Susceptibility **45**, 151

Antimicrobial activity; *Haplopappus*; Resinous exudate **45**, 71

Antimicrobial activity; Medicinal plants **45**, 67

Antimicrobial screening; *Staphylococcus aureus*; *Escherichia coli*; *Saccharomyces cerevisiae*; *Fusarium oxysporum* **45**, 97

Asteraceae; *Trypanosoma cruzi*; Trypomastigote forms; *Triatoma infestans*; Insecticide; Paraguay **45**, 35

Behavior; *Croton zehntneri*; Central nervous system effects; Essential oil **45**, 53

Betel quid; *Piper betle*; Eugenol; Safrole; Spinal and autonomic reflex; Sensory C-fiber **45**, 183

Black tea; Diabetes; *Camellia sinensis* (L) O. Kuntze; Blood glucose **45**, 223

Blood glucose; Diabetes; *Camellia sinensis* (L) O. Kuntze; Black tea **45**, 223

Calcium oxalate urolithiasis; *Herniaria hirsuta*; *Agropyron repens* **45**, 211

***Camellia sinensis* (L) O. Kuntze**; Diabetes; Black tea; Blood glucose **45**, 223

Cardiac contractility; *Mareya micrantha*; Cardiodepressant **45**, 19

Cardiodepressant; *Mareya micrantha*; Cardiac contractility **45**, 19

Casimiroa edulis; Anticonvulsants; Medicinal plants; Phenobarbital; Phenytoin **45**, 199

Cassia alata; Leguminosae; Dermatophytic fungi; Antimicrobial activity; Susceptibility **45**, 151

Central nervous system effects; *Croton zehntneri*; Essential oil; Behavior **45**, 53

Crotalaria juncea; Toxicity; Vital organs; Rats **45**, 167

Croton zehntneri; Central nervous system effects; Essential oil; Behavior **45**, 53

Crude drug; *Salmonella typhi*; Septicemia; Medicinal herbs **45**, 141

Dermatophytic fungi; *Cassia alata*; Leguminosae; Antimicrobial activity; Susceptibility **45**, 151

Diabetes; *Camellia sinensis* (L) O. Kuntze; Black tea; Blood glucose **45**, 223

Dioclea grandiflora; Analgesic effect; Dioclein; Opioid agonist **45**, 207

Dioclein; *Dioclea grandiflora*; Analgesic effect; Opioid agonist **45**, 207

DNA damage; Hepatoprotective plants; Free radicals **45**, 189

Elephantopus mollis; *Elephantopus scaber*; *Pseudoelephantopus spicatus*; β-D-Galactosamine; Acetaminophen; Hepatoprotective effect **45**, 113

Elephantopus scaber; *Elephantopus mollis*; *Pseudoelephantopus spicatus*; β-D-Galactosamine; Acetaminophen; Hepatoprotective effect **45**, 113

Entamoeba histolytica; Medicinal herbs; Antiamoebic **45**, 43

Escherichia coli; Antimicrobial screening; *Staphylococcus aureus*; *Saccharomyces cerevisiae*; *Fusarium oxysporum* **45**, 97

Essential oil; *Croton zehntneri*; Central nervous system effects; Behavior **45**, 53

Ethiopian herbs; Taenicidal herbs; Anthelmintics; Taeniasis; Traditional herbal drugs **45**, 27

Ethnobotany; *Phyllanthus*; Traditional medicine; Hepatitis B virus **45**, 1

Ethnobotany; Ethnopharmacology; Medicinal plants; Granada; Spain **45**, 157

Ethnopharmacology; Ethnobotany; Medicinal plants; Granada; Spain **45**, 157

Eugenol; *Piper betle*; Betel quid; Safrole; Spinal and autonomic reflex; Sensory C-fiber **45**, 183

Folk medicine; *Prangos platychlaena*; Umbelliferae; Antibacterial and antifungal activities **45**, 193

Free radicals; Hepatoprotective plants; DNA damage **45**, 189

Fusarium oxysporum; Antimicrobial screening; *Staphylococcus aureus*; *Escherichia coli*; *Saccharomyces cerevisiae* **45**, 97

β-D-Galactosamine; *Elephantopus scaber*; *Elephantopus mollis*; *Pseudoelephantopus spicatus*; Acetaminophen; Hepatoprotective effect **45**, 113

Granada; Ethnobotany; Ethnopharmacology; Medicinal plants; Spain **45**, 157

Haplopappus; Resinous exudate; Antimicrobial activity **45**, 71

Hepatitis B virus; *Phyllanthus*; Ethnobotany; Traditional medicine **45**, 1

Hepatoprotective effect; *Elephantopus scaber*; *Elephantopus mollis*; *Pseudoelephantopus spicatus*; β-D-Galactosamine; Acetaminophen **45**, 113

Hepatoprotective plants; Free radicals; DNA damage **45**, 189

Herniaria hirsuta; *Agropyron repens*; Calcium oxalate urolithiasis **45**, 211

Human polymorphonuclear leukocyte; Leukotrienes; Lipoxygenase; Stilbene; Lysosomal enzyme; Medicinal plant **45**, 131

Indonesia; Traditional herbal medications; Sumatra **45**, 75

Insecticide; Asteraceae; *Trypanosoma cruzi*; Trypomastigote forms; *Triatoma infestans*; Paraguay **45**, 35

Irvingia gabonensis; Stem bark; Analgesia; Morphine; Metamizole sodium; Naloxone **45**, 125

Leguminosae; *Cassia alata*; Dermatophytic fungi; Antimicrobial activity; Susceptibility **45**, 151

Leukotrienes; Lipoxygenase; Stilbene; Lysosomal enzyme; Medicinal plant; Human polymorphonuclear leukocyte **45**, 131

Lipoxygenase; Leukotrienes; Stilbene; Lysosomal enzyme; Medicinal plant; Human polymorphonuclear leukocyte **45**, 131

Lysosomal enzyme; Leukotrienes; Lipoxygenase; Stilbene; Medicinal plant; Human polymorphonuclear leukocyte **45**, 131

Mareya micrantha; Cardiac contractility; Cardiodepressant **45**, 19

Mareya micrantha; Smooth muscle; Pharmacological marker **45**, 215

Medicinal herbs; *Entamoeba histolytica*; Antiamoebic **45**, 43

Medicinal herbs; *Salmonella typhi*; Crude drug; Septicemia **45**, 141

Medicinal plant; Leukotrienes; Lipoxygenase; Stilbene; Lysosomal enzyme; Human polymorphonuclear leukocyte **45**, 131

Medicinal plants; Anticonvulsants; *Casimiroa edulis*; Phenobarbital; Phenytoin **45**, 199

Medicinal plants; Antimicrobial activity **45**, 67

Medicinal plants; Ethnobotany; Ethnopharmacology; Granada; Spain **45**, 157

Metamizole sodium; *Irvingia gabonensis*; Stem bark; Analgesia; Morphine; Naloxone **45**, 125

Morphine; *Irvingia gabonensis*; Stem bark; Analgesia; Metamizole sodium; Naloxone **45**, 125

Naloxone; *Irvingia gabonensis*; Stem bark; Analgesia; Morphine; Metamizole sodium **45**, 125

Opioid agonist; *Dioclea grandiflora*; Analgesic effect; Dioclein **45**, 207

Paraguay; Asteraceae; *Trypanosoma cruzi*; Trypomastigote forms; *Triatoma infestans*; Insecticide **45**, 35

Pharmacological marker; *Mareya micrantha*; Smooth muscle **45**, 215

Phenobarbital; Anticonvulsants; *Casimiroa edulis*; Medicinal plants; Phenytoin **45**, 199

Phenoxazinones pigments; *Pycnoporus sanguineus*; Antibacterial activity **45**, 177

Phenytoin; Anticonvulsants; *Casimiroa edulis*; Medicinal plants; Phenobarbital **45**, 199

Phyllanthus; Ethnobotany; Traditional medicine; Hepatitis B virus **45**, 1

Piper betle; Betel quid; Eugenol; Safrole; Spinal and autonomic reflex; Sensory C-fiber **45**, 183

Prangos platychlaena; Umbelliferae; Folk medicine; Antibacterial and antifungal activities **45**, 193

Pseudoelephantopus spicatus; *Elephantopus scaber*; *Elephantopus mollis*; β-D-Galactosamine; Acetaminophen; Hepatoprotective effect **45**, 113

Pycnoporus sanguineus; Antibacterial activity; Phenoxazinones pigments **45**, 177

Rats; Toxicity; *Crotalaria juncea*; Vital organs **45**, 167

Relaxant properties; *Thymus*; Smooth muscle **45**, 59

Resinous exudate; *Haplopappus*; Antimicrobial activity **45**, 71

Saccharomyces cerevisiae; Antimicrobial screening; *Staphylococcus aureus*; *Escherichia coli*; *Fusarium oxysporum* **45**, 97

Safrole; *Piper betle*; Betel quid; Eugenol; Spinal and autonomic reflex; Sensory C-fiber **45**, 183

Salmonella typhi; Crude drug; Septicemia; Medicinal herbs **45**, 141

Sensory C-fiber; *Piper betle*; Betel quid; Eugenol; Safrole; Spinal and autonomic reflex **45**, 183

Septicemia; *Salmonella typhi*; Crude drug; Medicinal herbs **45**, 141

Smooth muscle; *Mareya micrantha*; Pharmacological marker **45**, 215

Smooth muscle; *Thymus*; Relaxant properties **45**, 59

Spain; Ethnobotany; Ethnopharmacology; Medicinal plants; Granada **45**, 157

Spinal and autonomic reflex; *Piper betle*; Betel quid; Eugenol; Safrole; Sensory C-fiber **45**, 183

Staphylococcus aureus; Antimicrobial screening; *Escherichia coli*; *Saccharomyces cerevisiae*; *Fusarium oxysporum* **45**, 97

Stem bark; *Irvingia gabonensis*; Analgesia; Morphine; Metamizole sodium; Naloxone **45**, 125

Stilbene; Leukotrienes; Lipoxygenase; Lysosomal enzyme; Medicinal plant; Human polymorphonuclear leukocyte **45**, 131

Sumatra; Traditional herbal medications; Indonesia **45**, 75

Susceptibility; *Cassia alata*; Leguminosae; Dermatophytic fungi; Antimicrobial activity **45**, 151

Taeniasis; Taenicidal herbs; Anthelmintics; Traditional herbal drugs; Ethiopian herbs **45**, 27

Taenicidal herbs; Anthelmintics; Taeniasis; Traditional herbal drugs; Ethiopian herbs **45**, 27

Thymus; Smooth muscle; Relaxant properties **45**, 59

Toxicity; *Crotalaria juncea*; Vital organs; Rats **45**, 167

Traditional herbal drugs; Taenicidal herbs; Anthelmintics; Taeniasis; Ethiopian herbs **45**, 27

Traditional herbal medications; Indonesia; Sumatra **45**, 75

Traditional medicine; *Phyllanthus*; Ethnobotany; Hepatitis B virus **45**, 1

Triatoma infestans; Asteraceae; *Trypanosoma cruzi*; Trypomastigote forms; Insecticide; Paraguay **45**, 35

Trypanosoma cruzi; Asteraceae; Trypomastigote forms; *Triatoma infestans*; Insecticide; Paraguay **45**, 35

Trypomastigote forms; Asteraceae; *Trypanosoma cruzi*; *Triatoma infestans*; Insecticide; Paraguay **45**, 35

Umbelliferae; *Prangos platychlaena*; Folk medicine; Antibacterial and antifungal activities **45**, 193

Vital organs; Toxicity; *Crotalaria juncea*; Rats **45**, 167
